Matr.nr. I - Skansapakkhúsið

*Brot úr "Tinganes - Tórshavn. En kort historisk orientering"
- Arne Thorsteinsson 1986:*

Skansapakkhúsið, den yderste bygning på Tinganes, er opført i 1749 på den lille skanses plads. I sin oprindelige form var huset en lille eenetages træbygning på kælder, muret op af sten og skilp, en kalkmørtel, brændt af strandskaller. Flere udvidelser og påbygninger - den yngste i 1907 - har givet huset sin nuværende fleretas form.
