Matr. nr. I - Leigubúðin

Brot úr "Tinganes - Tórshavn. En kort historisk orientering"
- Arne Thorsteinsson 1986:

Leigubúðin, hvori kongens indkomster, som betaltes i naturalier, opbevaredes, er en træbygning opført på en muret kælder. Den nævnes første gang i 1619 og hører til de få bygninger, som undslap branden i 1673. Bygningen havde oprindeligt kun én etage. Den øvre etage af træ er påført i 1732.
